International Trade Assistance Center

The International Trade Assistance Center (ITAC) is partially funded by SBA, the Ohio Department of Development's SBDC program and the Lake County Port Authority. This office provides free counseling to small and medium sized enterprises wishing to begin exporting or expand their overseas markets. ITAC also supports regional trade missions, conducts training seminars, provides internet research and acts as a clearing house for thier clients - connecting them with all of the export support providers in the region.

Check out Ohio's [International Business Resource](#) . This is an excellent source of information about exporting and importing.

For more information, contact:

Nathaniel Ward, ITAC Director

Located at Monte Ahuja College of Business

Cleveland State University
